LATIFA KHALID ALANAZI

SOFTWARE ENGINEER | QA ENGINEER | ISTQB CTFL CERTIFIED

Hail / Riyadh, Saudi Arabia | +966554135613 | latifa.k.alanazi@gmail.com | **LinkedIn** | **Portfolio** | **GitHub**

PROFESSIONAL SUMMARY

Software Engineering graduate from the University of Hail (Class of 2026) and ISTQB CTFL certified, with hands-on experience in web development and software quality assurance through academic and personal projects. Skilled in Angular, TypeScript, Python, REST APIs, SQL, manual testing, and API testing. Familiar with Agile methodologies, test case design, and defect reporting, with a focus on developing and testing reliable software solutions.

EXPERIENCE

Quality Assurance Intern | JODAYN Information Technology Company

Hail, Saudi Arabia • 7-Month Internship

- Designed and executed test cases to verify system functionality and documented software defects with clear reproduction details.
- Retested resolved defects and validated results in close collaboration with development teams.
- Tested user interfaces and verified that actual results matched business requirements.

TECHNICAL PROJECTS

Bayyin – Smart Documentation & Text Verification Platform **(Personal Project)**

- Developed a web platform using Python, FastAPI, and Streamlit to support semantic search and text verification based on indexed sources. Integrated frontend with backend services, deployed on Render, and tuned LLM behavior to minimize unsupported responses.

SparkHub – Smart Student Clubs Platform **(Graduation Project | Team Project)**

- Developed responsive web interfaces using Angular and TypeScript, integrated with REST APIs, and managed tasks via Azure DevOps. Contributed to software testing, test case design, and defect documentation.

BuggyBank – Interactive Web Application **(Personal Project)**

- Developed an experimental banking web application using HTML, CSS, and JavaScript to simulate software defects and practice identification and analysis.

Quality Hub – QA Training & Testing Portal **(Personal Project)**

- Developed a Flask and SQLite portal for managing test cases and bug reports, with JWT authentication and a practice quiz.

TECHNICAL SKILLS

- Frontend Development: Angular, TypeScript, JavaScript, HTML, CSS, Responsive Web Design, Streamlit
- Backend & APIs: Python, FastAPI, Flask, REST APIs
- Software Testing: Manual Testing, API Testing, Playwright, Postman, Test Case Design, Defect Reporting
- Tools & Technologies: Prompt Engineering, Git, GitHub, Azure DevOps, VS Code, Render, SQL

EDUCATION & CERTIFICATIONS

Bachelor of Software Engineering | University of Hail | 2021 – 2026
GPA: 3.342 / 4.00
ISTQB Certified Tester Foundation Level (CTFL v4.0) – ISTQB
Craft Precise Prompts for AI Models – IBM SkillsBuild
Agile Project Management – Alison
